DETAILED ACTION

Reissue Applications

1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:
2. The reissue oath/declaration filed with this application is defective because it fails to contain a statement that all errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant.

The amended claims 27-37, 41-43, 45-53 and 57-60 correct more errors in the patent, particularly claim 32 and its dependent claims, claims 41,42,43,51 added further limitations which were not presented when the reissue application was filed.

See MPEP § 1414.01 for a discussion of the requirements for a supplemental reissue Oath or declaration.

3. The amendment to any new claims must be made by underling and without brackets because all subject matter being added to patent must be underlined. All subject matter being deleted from the patent must be placed between brackets. All bracketing and underlining is made in comparison to the original patent, not in comparison with the prior amendments. See MPEP 1455. There for claims 27-37,41-43,45-46,48-53 and 57-60 must be entirely underlined.

Art Unit: 2838

4. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

5. Claims 1-20,27-37,41-43,45-46,48-53 and 57-60 are rejected as being based upon a defective reissue Oath/Declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

6. Claims 1-20,27-37,41-43,45-46,48-53 and 57-60 contain allowable subject matters.

7. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

8. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No.

5,859,768 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.
